Hydroxyanthraquinones, *see* Laxatives
***p*-Hydroxybenzoic acid esters** as preservatives. I. Uses, antibacterial and antifungal studies, properties, and determination, 449
Hypodermic tablets, solution time of, 439

I

Infrared analysis of active ingredients in ointments. II. Pilocarpine hydrochloride and phenacaine hydrochloride, 698
International biological standards and the World Health Organization, 226
Iodine, organic compounds, the development of, as X-ray contrast media, 721

the properties of, in solutions of surface-active agents, 396
Iron-gentisate reaction, and its application, a study of, 104
Isoniazids, microdetermination of, 346
Isonicotinic hydrazide, a note on the determination of, by a volumetric method, 323
substitution products of. Antitubercular substances. II. 457
The isotope dilution procedure of analysis. I. Historical and literature survey, 301
II. Procedure, 304
Isotope encephalometry, external localization techniques for the diagnosis of brain tumors, 126
Isotopes, radioactive, the detection of intracranial lesions, especially recurrent tumors, by the use of, 125

K

Khellin, experiments with. V. The structure of desmethylisokhellin, 573
ultraviolet spectrophotometric estimation of, in human blood, 20

L

Laxatives, chemical structure and potency of phthaleins and hydroxanthraquinones, 23
Lithium Aluminum hydride, the reduction of Schiff bases with, 435

M

Madronin in agar gel, the electrophoretic analysis and antibacterial determination of, 431
Malonates, a pharmacological study of a series of diethylaminoethyl esters of disubstituted, 433
Menthol content, free, of Oregon and Washington peppermint oils, relationship to viscosity, 33
Menthol-menthyl acetate, liquid-liquid countercurrent separation of a, 666
N-Methylgranatolines, stereoisomeric 715
Microdetermination of isoniazids, 346
Micromethod for the detection and identification of glycosides, 348
Monosodium glutamate, a flavor panel study of the application of, to the flavor of pharmaceutical products, 682
Morphine, determination of, in opium, with the aid of an adsorption column, 146
separation of, from codeine by means of ion exchange, 150
Multivitamin products, factors affecting the microbiological assay of pyridoxine in, 581

N

Nembutal (pentobarbital sodium), a note on the effect of, and ether, on the thromboplastic potency of mouse brain, 322
Neomycin-fungistat ointment, semiquantitative assay of, 408
Nonaqueous medium, *para*-aminosalicylic acid sodium *para*-aminosalicylicate: potentiometric titrations in, 338
solvents, titration of pharmaceuticals in, 509
titrants, a note on the purification of dioxane for use in preparing, 586
titration of antibiotic substances, 688
Nonionic detergent, toxicity studies of a, 556
wetting agents in extraction of alkaloidal drugs, the effect of certain, 382
Nontuberculous diseases, streptomycin therapy in, 522
Nucleic acids, the optical crystallographic properties of the hydrolytic products of. II. The properties of some natural and synthetic nucleosides, 53
Nucleosides, the properties of some natural and synthetic, 53
Nupercaine, efficiency of release of, from ointment base, 103

O

Odors, a study in the measurements of, and the deodorizing effects of certain materials, 242
Ointment base efficiency, a comparative analysis of, utilizing a pain threshold method, 344
vehicles, a note on solid brominated agents as *in vitro* bacteriostatics in, 262
Ointment bases, a new technique for the evaluation of, 103
Oleanolic acid from cranberries, 602
Ophthalmic solutions, the clinical significance of the *p*H of, 333
phenylethyl alcohol as a bacteriostatic agent in, 584
of sodium sulfonamides, a buffer system for, 210
Opium, determination of morphine in, with the aid of an adsorption column, 146
alkaloids, separation of some, by surface chromatography, 627
Optical crystallographic properties of the hydrolytic products of nucleic acids. II. The properties of some natural and synthetic nucleosides, 53
Oral Antiseptics, the influence of, on the number of bacteria washed out of the mouth as measured by a rinse technique, 200
Organophosphorus compounds, anticonvulsant and growth inhibitory effects of some, 495
Oxypolygelatin solution in rabbits, tolerance, toxicity, and caloric availability of intravenously injected, 623

P

Pachyrrhizus erosus, examination of the seed of, 117
(L.) Urban, the yam bean, a morphological study of, 471
Panparnit, effect of, on the oxygen uptake of rat brain, 618
Paper chromatography of choline and the vitamins B_1, B_2, niacin, and niacinamide. Preparation of radioactive choline acetate and study of its hydrolysis, 680
Parenteral solutions, rubber closures for containers of, I. The effect of temperature and *p*H on the rate of leaching of zinc salts from rubber closures in contact with (acid) solutions, 288
rubber closures for containers of, II. The relation between zinc content of cured rubber and acid-soluble zinc, 291
stability of vitamin B_{12}, folic acid, 183
Parenteral vegetable oils by chemical agents, the preservation of, 659
Pentobarbital anesthesia by glucose and its metabolites, a study of the potentiation of, 421
sodium, *see* Nembutal
Pharmacodynamically active substances symmetrical bifunctional analogs of, 9
Phenacaine hydrochloride, and pilocarpine hydrochloride. Infrared analysis of active ingredients in ointments, II, 698
Phenobarbital, the solubility of, in propylene glycol-alcohol-water systems, 540
Phenylacetone in amphetamine, the spectrophotometric determination of, 621
Phenylephrine hydrochloride, a note on experimental polycythemia produced by, 264
Phenylethyl alcohol as a bacteriostatic agent in ophthalmic solutions, 584
selective antibacterial action of, 6
Phenyltoloxamine (Bristamin), pharmacological properties of a new antihistaminic agent, 587
N-Phenyl ureides of some diaryl amidines of some aliphatic acids, 740
Phloroglucinol, use in vein islet number determination, 13
Phosphonic cation exchange resin, the effect of, on mineral balance in the rat, 357
Phthaleins, laxatives: chemical structure and potency of, and of hydroxyanthraquinones, 23
Pilocarpine hydrochloride, and phenacaine hydrochloride. Infrared analysis of active ingredients in ointments, II, 698
a study of the possible mechanism of action of, 327
Pines, composition of gum turpentines of. XVI. A report on *Pinus oocarpa* and *P. pseudostrobus* var. *oaxacana* from Chiapas and *P. cooperi* from Durango, 46
composition of gum turpentines of. XVII. A report on *Pinus montezumae* from Chiapas, *P. oocarpa* var. *trifoliata* and *P. durangensis* from Durango, Mexico, 464
Polyethylene Glycol 200, the activity and toxicity of ampules Amytal Sodium and Seconal Sodium in aqueous, 571
Prantal, the effect of, and Banthine, on human thermoregulatory sweating, 551
the metabolism of, in dogs and methods for the quantitative estimation of Prantal in biological material, 483
Priscoline, *see* 2-Benzyl-2-imidazoline
Propylene glycol, a note on a contraindication to, as a solvent in toxicity studies, 445
Pyridoxine in multivitamin products, factors affecting the microbiological assay of, 581

Q

Quercetin, clinical application of, preliminary report, 68
preparation and analysis of, 66

R

Radioactive isotopes and the scintillation counter, the detection of intracranial lesions, especially recurrent tumors, by the use of, 125
Radioelements, the use of chelating agents for accelerating excretion of, 629
Radiographic opaques, the synthesis of fluoro-bromo derivatives of benzoic acid to be evaluated as, 474
Rauwolfia serpentina Benth, a preliminary note on a pharmacological investigation of the hypotensive action of, 324
Reference standards for biological standardization, 215
Riboflavin, the polarographic determination of, 317
Rodent repellent studies. IV. Preparation and properties of trinitrobenzene-aryl amine complexes, 695
Rubber closures for containers of parenteral solutions, *see* parenteral solutions

S

Seaweed extracts, antibiotic activity of. II. *Rhodomela larix*, 294
Seconal Sodium, *see* Amytal Sodium
Shock, effect on infection with tetanus spores, 17
Silicone oils, as dermatological vehicles, a preliminary study of, 79
Sodium alkyl sulfates, a pharmacological study of a homologous series of, 283

Sodium sulfonamides, a buffer system for ophthalmic solutions of, 210
Solanaceous alkaloids, application of a citric acid buffer in the extraction of, 63
Sorbic acid, aminoalcohol esters of, 342
Stramonium tincture, preparation of, through the use of the colloid mill, 88
Streptomycin therapy in nontuberculous diseases, 522
Strychnine, the quantitative recovery and determination of, from toxicological samples, 308
Sucrose in hydroalcoholic solutions, the solubility of, 192
Sulfa drugs, sulfur-35 labeled, synthesis of, 77
Sulfonamide separations based on ion-exchange chromatography in combination with radioactive techniques, 310
Sulfur-35 labeled sulfa drugs, synthesis of, 77
Suppository bases. I. An evaluation of the rates of release of theophylline, 537
a study of. I. Review of literature, 90
II. A colorimetric method for measuring medicinal release from suppository bases, 96
III. A new water-soluble suppository base, 498
using radio-iodine to compare the rate of absorption from rectal suppositories to rats, 731
Surface-active agents, effect of certain upon bacterial growth, 187
the properties of iodine in solutions of, 396
the release of antimicrobial agents from solutions of, 267
Symmetrical bifunctional analogs of pharmacodynamically active substances, 9

T

Tablet compression, the physics of. II. The influence of degree of compression on properties of tablets, 194
Tablets, compressed, average weight, 690
weight variation, 692
Teridax (triiodoethionic acid), experimental oral cholecystography with a new contrast medium, 476
***p*-Tertiarybutylbenzoic acid,** medicinal derivatives of, 437
local anesthetic activity and toxicity of several esters of, 685
Tetanus spores, effect of traumatic shock and exhaustion on infection with, 17
Tetrahydrofuran and its mixtures, extraction of ergot alkaloids by, 747
Theophylline, an evaluation of the rates of release of, 537
derivatives. I. Analogs of 2-benzyl-2-imidazoline (Priscoline), 36
Thromboplastic potency of mouse brain, a note on the effect of Nembutal (pentobarbital sodium) and ether on, 322
Tibione, dithiobiuret analogs of, 31
see amithiozone
Titration, nonaqueous of antibiotic substances, 688
Triacetyl diphenyl isatin, chronic oral toxicity studies of, in dogs and rats, 468
Trifluoroethyl vinyl ether in aqueous solution, anesthesia. XLIII. The estimation of anesthetic, 633
Trihexyphenidyl—experimental studies employing a muscle-nerve preparation, 609
Triiodoethionic acid, experimental oral cholecystography with a new contrast medium, Teridax, 476
Trinitrobenzene-aryl amine complexes, preparation and properties of. Rodent repellent studies, IV, 695

U

Ultraviolet spectrophotometric estimation of khellin in human blood, 20
United States Pharmacopeia, Interim Revision Announcement, 59
Unsaturated lactones, cardiac activity of, as related to their theoretical peroxide formation, 653
Urogenital analgesia, the synthesis of azo compounds for, 129
Ursolic acid, chemical studies on, 603

V

Vegetable oil stability, colorimetric peroxide test method for determining, 545
Vein islet numbers, validity in species distinction, 13
Veratrum, studies on. II. *Veratrum Eschscholtzii* A. Gray, observations on seed germination and early growth of seedlings of *Veratrum* species, 39
Veratrum viride, assay of preparations of by hypotensive activity in dogs, 373
Viscosity, relationship to free menthol content of Oregon and Washington peppermint oils, 33
Vitamin B_1 and choline, chromatography of, 315
Vitamin B_{12} the six-point design in the U. S. P. microbiological assay of, 276
stability of—folic acid parenteral solutions, 183

W

Warfarin, *see* 3-(acetonylbenzyl)-4-hydroxycoumarin

X

X-ray contrast media, the development of organic iodine compounds as, 721

Z

Zinc sulfate, blood and bone marrow effects of feeding, to rats and dogs, 700
